The health, safety and well-being of all staff and pupils is of utmost importance to us.

This template does not follow the traditional format for a risk assessment. It only covers the control measures needed to manage the risks presented by COVID-19 as low as is possible, in line with community risk levels, therefore the need for scoring or prioritising control implementation is negated. The measures relate to all the persons who may be affected at your setting staff, pupils and visitors. Settings are required to review the identified control measures and describe how they are implementing these in the notes box. Where a control measure does not apply to your setting you can delete the line or enter NA. You may need to add additional control measures specific to your setting, additional space is provided at the end of the form for this purpose.

The control measures that are now needed are very different to those that were previously required when the consequences associated with COVID-19 were significant. More information on the measures identified here is available in the Compliance Code for all educational settings.

Please note: all COVID-19 guidance is available through HR InfoSpace and Norfolk Schools

### Key infection control measures

#### *Cleaning and disinfection*

	<p>The setting has developed specific cleaning schedules for items that need cleaning and disinfection. The schedule details all items, frequencies and who is responsible for this following the information detailed in the compliance code. This includes:</p> <ul style="list-style-type: none"> <li>• Cleaning all touch points including those that are fixed to the premises (inside and out) twice a day</li> <li>• Equipment and resources are disinfected on a daily basis as a minimum. <ul style="list-style-type: none"> <li>- Soft furnishings are disinfected with a proprietary fabric disinfectant spray.</li> <li>- Frequency of cleaning and disinfection of equipment is increased based on risk e.g. the number of different users who are handling equipment and resources, the ability of users to undertake effective hand hygiene</li> </ul> </li> <li>• Consideration has been given to times of high use and frequency of disinfection increased accordingly where possible.</li> <li>• Shared touch points in staff areas such as those on microwaves, kettles, fridges and photocopiers are wiped down before and after use</li> </ul>		<p>Cleaning Schedule is in place and extra finances have been devoted to cleaning. This will remain the case for the current time.</p>	
--	---	--	--	--

	<ul style="list-style-type: none"> <li>If a surface is visibly dirty it is always cleaned prior to disinfection.</li> </ul>		All staff will be reminded of this.

### ***Hand hygiene and respiratory hygiene arrangements***

Hand hygiene	<ul style="list-style-type: none"> <li>Staff are ensuring that hand hygiene is carried out more frequently than normal (pupils and themselves) in an age appropriate way e.g. observing young pupils, instructing in the class (How to hand rub and NHS guidance for handwashing).</li> <li>Event related prompts are given to pupils by staff.....<i>after..... before.... when</i> as a more effective means of promoting hand hygiene than fixed time prompts.</li> <li>Supervision arrangements are in place to support pupils with handwashing where it is needed.</li> <li>Skin friendly wipes such as baby wipes are provided as an alternative where children are not able to wash their hands due to age or health conditions.</li> <li>Hand hygiene frequencies include: arrival, before and after eating, before and after breaks, going to the toilet, before leaving, after removing a face covering, after handling resources (including those taken home) and at other identified intervals determined by the setting in relation to the activities carried out.</li> </ul>		<p>Good hygiene practices have been in place and will remain in place.
