Spring 2 Topic Web 2024

Days to remember

Tuesday	PE – Come to school dressed in your PE kit.
Wednesday	Outdoor Explorers
Thursday Friday	Hand in homework Reading Celebration - Our classroom is open 3pm each week for you to join us and listen to your child read.

Chestnut Tree Class

Year 2

Theme this half-term

Dragons

Core Read Aloud Texts

English

This half term our English unit is all about writing recounts. We will begin the unit by writing a recount of the half-term holiday, then explore a recount written from the perspective of 'Little Red Riding Hood'. We will then learn how to write a recount about a visit. Our reading lessons will also change as we will have whole class guided reading lessons to explore a text and learn how to write answers to questions.

Maths

We have completed our unit on multiplication and division and have sent home the TTRockstar and Numbots log in details for you – please let us know if you have not received this. Our maths unit this half term is on mass, capacity and temperature. Children are learning to read scales and use units of grams, kilograms, millilitres, litres and degrees centigrade. We are also learning to solve problems using these.

Science

Our Science unit this half term is all about plants. We will explore how plants grow by planting and observing beans, bulbs and cress. Children will develop their observation skills as well as using what they know to make predictions. We will also be using our reading skills to find out about plants and how they grow, using what we have learnt to answer written questions.

RE

Our RE unit will be exploring the question 'how do Christians belong to their faith family?' This will include a visit to the church this half term.

PE

PE will be on Tuesday afternoon each week, so please send your child to school dressed in their PE kit on these days. Our PE units for this half term are Target games and team building.

Computing or Music

This half term we have a computing unit where we will be learning about spreadsheets where children will learn how to enter data into a table within a sheet and then use this to create a chart.

Geography or History

This half term we have a geography unit where we will learn about China. Children will be working on developing their map work skills using an atlas as well as exploring culture and comparing Beijing and London.

Art & Design or Design & Technology

This half term we have a DT unit. In this unit we will be learning to make fruit kebabs. This will link to our science unit on healthy living last half term. Children will explore trying different fruits before interviewing a partner and designing a fruit kebab for that child.
